The residential rehabilitation services at New Life Recovery Center provide treatment for addicted individuals in a residential environment so they can be removed from the situations in which they are most likely to relapse, at a time when they are the most vulnerable. The program provides individual and group therapy for the clients, as well as education about addiction and case management. This includes planning to get them back

into an environment that will be more supportive of their decision to stop using alcohol or drugs. New Life Recovery Center is located in Fairlawn. A 30-day program, New Life has ten beds and serves both males and females who are 18 years of age or older with a primary diagnosis of alcohol and/or drug dependence. Residents may also have co-occurring mental health disorders.

We also support low-income families with young children through Head Start, parent education, and home visiting services that improve family health and self-sufficiency. NRCA serves over 12,000 New River Valley residents each year.

~~The mission of New River Community Action, Inc. (NRCA) is to promote and support the well-being and self-reliance of individuals, families and communities.
