THRIVE Network - Food Distribution Survey

Please be aware that you will be asked whether or not you track different units of food. You may report multiple units: for example if you track # of people served and # of food bags, you may report both units. However, please don't double count the same service (if you know how many people were served and how many bags they received, just report one of the units if reporting both will result in a double count).

If you track food bags distributed and the number of people who participate in an educational activity, then in this instance reporting both numbers will not result in a double count.

4. Do you track number of people served?

○ Yes

○ No

5. **Regarding number of people served from 1/1/2020 to 12/31/2020...**

Definitions
*Duplicated person: if the same person receives food from your pantry multiple times, you count them each time they received food during the year. If Jim came to your pantry 6 times last year, he would represent 6 duplicated people.
**Unduplicated person: if the same person received food from your pantry multiple times, you count them one time during the year. If Jim came to your pantry 6 times last year, he would represent 1 unduplicated person.

How many duplicated* people received food from your pantry from 1/1/2020 to 12/31/2020?	
How many unduplicated** people does this represent?	
What is the food service received by these people?
